

Sharan.

Volkswagen

Highlights.

Powerful TSI engine

The Sharan has a 2.0 TSI engine with 220 PS and 350 Nm of torque. It delivers smooth, effortless performance even when the car is fully loaded, combined with very impressive fuel efficiency.

Electric sliding rear doors

Offering easy access to the cabin, the electric rear doors can be opened using the handles or remote key. Sophisticated sensors prevent them from closing when an obstruction is detected.

3-zone climate control

Not only can the driver and front seat passenger choose their preferred cabin temperatures individually, a separate control allows passengers at the rear to set their own climate zone too.

7 individual seats

With 7 full-sized seats, everyone can get comfortable on board. The seats in the middle row can slide, recline and fold away individually so there are numerous possible configurations.

Integrated child seats

Much thought has been given to the younger ones: the two integrated child seats in the second row ensure that they can travel in complete safety. They retract completely when not in use.

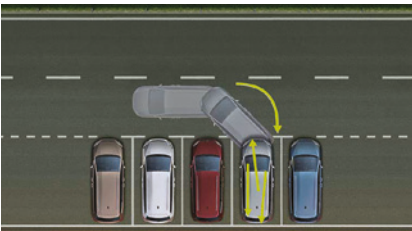

App-Connect

Two innovative technologies allow you to integrate selected smartphone apps onto your infotainment system's touchscreen: Android Auto™, and Apple CarPlay™.

Panoramic sunroof

The large panoramic sunroof of the Sharan provides all passengers with a great view. The heat and UV-resistant glass also helps keep the interior cool even on warm days.

Park Assist

Park Assist automatically steers the car into parallel and reverse parking spaces, and also out of parallel parking spaces. All the driver has to do is operate the accelerator and the brake.

Safety.

Electrically operated child door locks

For maximum safety, the child locks for the rear doors can be remotely operated by the driver. Activating them prevents children from accidentally opening the doors from the inside of the car.

ESP

The ESP system keeps the Sharan stable even in extreme driving conditions. It adjusts the engine's output and brakes individual wheels when it detects skidding, so the driver stays in control.

Technical data.

Sharan 2.0 TSI	
Engine	
Engine type	4-cylinder, TSI petrol engine with 16 valves, turbocharger
Capacity L / cc	2.0 / 1,984
Power PS / rpm	220 / 4,500 – 6,200
