Mercedes-AMG E 43 4MATIC Estate - Business as Unusual

The 43-series models from Mercedes-AMG provide the brand's hallmark emotive appeal and exciting Driving Performance for everyday use. They are the new entry-level models into the world of Mercedes-AMG Performance vehicles. The V6 biturbo engine, AMG-typical technical components and the striking AMG design create an attractive overall package for the performance-oriented target audience.

The performance-oriented all-wheel drive developed by Mercedes-AMG combines optimum traction, hallmark AMG driving dynamics and maximum driving pleasure. This is ensured by the clear torque distribution to the rear. Unlike in the standard model, Mercedes-AMG distributes the engine torque in a ratio of 31% to the front axle and 69% to the rear axle. In addition, AMG 4MATIC all-wheel drive increases driving safety and traction on wet or wintry road surfaces.
