

Movement that inspires.

At Kia, we believe movement inspires ideas. Great ideas come to you when you're on the move. Whether you're walking, traveling on a train or driving. It's why we create the spaces and the time you need to bring ideas to life.

The new Stinger

Movement that inspires

Classic spirit tuned for modern times.

Kia's first-ever rear-wheel-drive sports sedan, the Stinger, is a five-door fastback that echoes the style and substance of gran turismo legends with its long hood, muscular haunches and stylish spoked wheels, along with serious game-changing performance figures. The Stinger offers an extended wheelbase for maximum cabin space, driver assistance and entertainment technologies unimaginable during the glory days of muscle cars.

Performance-based sensations.

Performance sedans have an illustrious rear-wheel drive history. Apply the latest technologies and materials to this tradition, and the result is a remarkably responsive, dynamic and rewarding driving experience. The Stinger reflects a deep commitment to capturing the distinctive feel of classic sport sedans. Take a long, meandering ride in the Stinger and see how the right balance of passion and technology can reinvigorate your daily drive.

A dream car for rational people.

Are you torn between exciting, provocative cars that you've dreamt about from an early age and sensible cars that are a better fit for your everyday life? Rarely has a new car brought both of these extremes together so seamlessly. The Stinger is a car you can dream about all night, then hop into every morning for a drive that is sure to wake up your senses.

Where personal space is paramount.

Inside, the Stinger feels sporty, substantial and uncluttered. It's also spacious, particularly in the rear, thanks to its long wheelbase. Interior treatments include soft, luxurious Nappa leather seats on the GT version, while both the GT Line and GT models feature firm front and rear seats and bolsters.

Expansive 2nd row roominess

The Stinger offers superior headroom, shoulder room and legroom compared to its major competitors, providing ample space for two or three passengers to sit comfortably and stretch out.

Wide sunroof

Ready to feel the wind in your hair? A wide, tilting and gliding, one-touch sunroof is available. With the press of a finger, it lets in far more sunlight and fresh air than a conventional sunroof.

Supportive but not overbearing.

The Stinger offers substantial stability management for a sports sedan, while giving the driver more choices as to how much or how little control to leave to the ECU. Drivers can choose from five drive modes, each with its own coordinated combination of dynamic characteristics. There is even a Launch Control mode that momentarily suspends ESC to ensure rapid acceleration with minimal wheel slip and maximum torque control.

Ingenuity that packs a punch.

Stinger powertrains set a higher standard for longitudinal, rear-wheel-drive orientation, leveraging technology to achieve remarkable combustion efficiency. Each powerplant with its 8-speed automatic transmission, is designed to offer the thrilling feel of rear-wheel propulsion when you step on the accelerator, even at low engine speeds.

8-speed automatic transmission

Smooth shifts are what you'll notice first with the 8-speed rear-wheel drive automatic transmission. Its algorithms ensure quick and seamless gear changes while helping to maximize fuel efficiency.

Theta II 2.0 T-GDI engine (GT Line only)

A twin-scroll turbocharger boosts low- to mid-rev efficiency while newly applied technologies provide phenomenal combustion efficiency. The engine produces maximum power output of 244 ps at 6,200 rpm and maximum torque output of 353 Nm from 1,400 to 4,000 rpm.

Lambda 3.3 T-GDI engine (GT only*)

A twin turbocharger helps this top-of-the-line V-6 engine achieve considerable torque over a broad rpm range. The exhaust manifold is integrated with the cylinder head for added power, and an electronic thermostat helps provide precise temperature control.

Intelligent distribution of power.

Electronic Stability Control (ESC)

ESC ensures optimal braking performance and directional control by automatically delivering the right amount of braking force to each wheel based on evaluation of engine torque and driving circumstances.

Drive Mode Select (DMS)

The Stinger's DMS includes five modes, accessible from a dial behind the shift lever, that change the driving characteristics by automatically adjusting how the engine, transmission, suspension, steering and AWD operate, while even altering the engine sound.

The science of protection.

Phenomenal torsional rigidity and hot-stamped steel

The steel members of the Stinger's body are engineered for substantial torsional rigidity, or resistance to twisting forces, so that bumps and jolts in the road are absorbed with precision, while impact forces during a collision are managed in ways that better protect the occupant space.

21 Hot-stamped components

173 Meters of advanced adhesives

Advanced 7-airbag system

To help protect occupants and potentially reduce injuries in the event of a collision, the Stinger offers driver and front passenger airbags, two front-side airbags, two side-curtain airbags, and a driver's knee airbag as standard.

Knee airbag

The driver's knee airbag is designed to minimize impact and injury to the driver's lower extremities in the event of a collision.

Intuitive problem-solving.

DRIVE WiSE is Kia's ADAS (Advanced Driver Assistance System) technology initiative dedicated to delivering driving pleasure and the utmost in occupant and pedestrian safety by taking over the tedious and complex tasks traditionally left to drivers. The Stinger offers many DRIVE WiSE assistance technologies that use advanced sensor and processing technology to help make driving as safe and convenient as possible.

Safety
DRIVE WiSE recognizes surrounding risk factors at an early stage. Its intrinsic alarm system is designed to improve safety by pre-emptively reducing the risk of accidents through timely interventions.

Convenience
DRIVE WiSE provides customized information based on analysis of surroundings and the driver's actions. The goal is to prevent undesirable operation, guarantee the driver's autonomy, and maximize convenience.

Efficiency
DRIVE WiSE is dedicated to supporting more efficient driving in ways that respect the driver's time and economic interests.

Surround View Monitor (SVM) with Parking Guidance
This intuitive system combines four wide-angle images from cameras at the front, rear and sides of the vehicle to give you a comprehensive bird's eye view of your surroundings while parking or moving at speeds below 20 km/h.

Forward Collision-Avoidance Assist (FCA)
FCA uses a front view camera and front radar to detect vehicles, pedestrians or cyclists ahead. By warning and braking automatically, it can help you avoid or reduce the severity of an accident.

Parking Distance Warning-Forward/Reverse (PDW-F/R)
To help you park safely and confidently, PDW-F/R uses ultrasonic sensors mounted on the front and rear bumpers to warn of any obstacles. These warnings can help you position the wheels properly when maneuvering the Stinger into tight spaces.

Lane Keeping Assist (LKA)
When you start drifting out of your lane, LKA alerts you and even steers you back to your intended lane of travel.

Blind-Spot Collision Warning (BCW)
Using radar to monitor the sides and rear of the vehicle, BCW employs visual alerts on the side view mirror to inform the driver about vehicles in the blind spot for easier and safer lane changes.

Blind-Spot View Monitor (BVM)
Activate the turn signal and BVM will present live video footage on the instrument cluster of other vehicles in the blind spot.

Information in clear sight.

Designing the ideal driving experience requires packaging all of today's technologies in a clear, simple and satisfying way. The Stinger boasts a wealth of high-tech driving, safety and entertainment features that did not exist in the old days of gran turismo motoring. Yet the cockpit design is simple and classic, allowing the driver to focus on the road. Equipment like the Head-Up Display and 8-inch navigation screen convey information in an ingenious yet tasteful way.

7" supervision cluster

Vital vehicle and driving information appear in a larger, more vivid and higher-definition format on the 7-inch TFT LCD supervision cluster located between the tachometer and the speedometer.

Wireless smartphone charger

Charge a compatible mobile phone wirelessly on the charging pad located at the front of the center console. An orange display indicates charging in progress while green indicates a full charge. You will be alerted when exiting the vehicle if a device is left on the charging pad.

Head-Up Display (HUD)

With the customizable HUD, key driving information is discretely projected onto the windshield in your line of sight so that you can safely focus on the road ahead. Visible day or night, the height-adjustable display appears to float just in front of the car. Speed, cruise control, audio, and Blind Spot Detection information are included.

Sublime sophistication.

You spend a lot of time in your car. So why not tailor the Stinger's interior to match your take on the ideal modern gran turismo? The Stinger has a surprisingly long list of impressive standard features, but for the utmost enjoyment, choose from a variety of premium comfort, entertainment and convenience options.

Paddle shift levers

Standard paddle shift levers let you make quick gear changes for the 8-speed automatic transmission without taking your hands off the steering wheel. It's a simple way to access more torque on short notice or choose your own shift points during vigorous driving.

3-zone climate control

A standard dual-zone full auto temperature control system along with rear seat climate control gives the driver and all passengers separate controls, allowing people with different climate needs to ride together in comfort.

15 - speaker Harman/Kardon® premium sound (GT only)

The Harman/Kardon sound system includes subwoofers that resonate in hollow parts of the frame and body. Clari-Fi technology enhances digitally compressed music while Active Sound Design augments acceleration, shifting and suspension sounds for an enhanced driving experience.

Heated and ventilated front seats

Available ventilated front seats provide cool, soothing airflow on hot days, and more effective and thorough heating on cold days. Both the seat cushion and the seatback feature airflow perforations to keep more of the body in a state of comfort.

Integrated Memory System (IMS)

The Integrated Memory System saves two presets for driver's seating positions, outside rear-view mirrors, Head-Up Display and cluster display. It's a simple way to keep the Stinger totally personalized, yet flexible enough to make another driver feel at home.

Electric Parking Brake (EPB)

An electric parking brake offers quick, secure activation without the effort required by traditional mechanical brake levers. Pull on the EPB switch on the center console to activate the parking brake. Auto Hold mode temporarily maintains the vehicle at a standstill even if the brake pedal is released.

► Side-bolster adjustment

Side-bolster adjustment for the 8-way power driver seat lets you choose a setting that offers maximum support and comfort by twisting the seat controls on the side of the base of the seat.

► 4-way Air Cell Lumbar Support

Air Cell Lumbar Support for the 8-way power driver seat lets you reposition areas of resistance in the seatback, up-and-down and side-to-side, for maximum comfort and support.

► Cushion extension

To help relieve fatigue, a thigh extension for the driver moves the front edge of the seat base forward, supporting a larger area of the driver's thighs.

Deeply personal allure.

The inviting Stinger interior reflects the spirit of the gran turismo concept. Rich, luxurious tones complement the bold exterior colors. Contrast stitching and real aluminum add a refined touch.

One spirit two faces.

Every Kia Stinger artfully captures the most desired elements of classic motoring in a five-door sports sedan designed to excel in the real world. From the invigorating GT Line to the exhilarating GT, every Stinger offers driving enjoyment, a spacious interior and forward-thinking technology. Exclusive GT Line and GT exterior trim elements, interior options and performance features give these versions an especially unique personality.

Cycle & Carriage Aftersales Service keeps your car in its prime.

We care for you the same way we care for our family. Experience the Cycle & Carriage Kia Service spirit as we welcome you at our Kia Authorised Service Centres.

With more than a century in the automotive industry, we can assure you that you will enjoy the most comprehensive customer support and exceptional service experience by well-trained professionals, using state-of-the-art technologies, diagnostic tools and genuine parts to keep your Kia vehicle running in peak condition. All Kia genuine parts come with 2 years or 40,000km (whichever comes first) warranty.

This is our commitment to you.

Industry-leading warranty.

We are confident of the quality and durability of every Kia vehicle, having undergone stringent pre-delivery processes and checks before being delivered in pristine condition. We are so confident that your new Kia car will enjoy a 5-year unlimited mileage warranty and a 10-year engine warranty.

From the date of registration, your new Kia car is covered against defects in materials and workmanship for a period of 5 years of factory unlimited mileage.

On top of that, starting from 1 June 2014, your Kia car will come with a 10-year engine warranty, subject to a maximum mileage of 200,000km or 10 years, whichever is earlier. This engine warranty from Cycle & Carriage will take effect immediately after the expiry of the manufacturer's.
