

ECLIPSE CROSS

MITSUBISHI ECLIPSE CROSS TURBO COUPÉ SUV

Every now and then, a car comes along to break all the rules, and makes you rethink what you want in one. This is *that* car. The ALL-NEW Eclipse Cross looks like a coupé, but drives like an SUV. Featuring exceptional Japanese craftsmanship and unparalleled attention to detail, it's primed to take you places – both familiar and out of your comfort zone.

DESIGNED TO DEFY

With highly dynamic contours similar to the lines of a sprinter waiting in the starting blocks, the Eclipse Cross is distinctively designed like a coupé, unlike other SUVs. Much attention to detail has been paid to marry form and function in the most stylish and sporty way without sacrificing space and practicality. Perfect for drivers looking to make a bold statement, this is the car that will take you into the future.

DESIGN

STYLISH COUPÉ LINES

Bold lines. Flared fenders. A deeply sculpted wedge like an athlete perched to explode from the starting block. The Eclipse Cross is a head-turner from every angle.

POWER PANORAMIC SUNROOF*

The stylish twin sunroofs with outer sliding glass – which can be separately operated – open up the atmosphere for both the driver and passengers.

*Optional for 2-wheel drive model.

SHARK FIN ANTENNA

Combining form and function well, the sleek aerodynamic shark fin antenna offers an attractive low-profile design without sacrificing reception.

18" ALLOY WHEEL DESIGN

Completing the modern exterior of the Eclipse Cross is the stylish 18-inch alloy wheel design.

DISTINCTIVE REAR DESIGN

The highly distinctive rear design features high-mounted stretched rear lamps that horizontally divide the forward-rake rear window into two. When illuminated, the tubular LED brake lights and central LED high-mount stop light form a single light trail across the tail, giving the car a broad and stable appearance from the back.

LED HEADLAMPS WITH LED DAYTIME RUNNING LIGHTS

On the front of the car – LED Daytime Running Lights (DRL), dipped beam headlights with position lights and fog lamp bezel. And on the back – chrome tailgate garnish with LED rear combination lamps and rear fog lamp to complement.

FULL COLOUR 4.2" TFT LCD INFORMATION PANEL

The large, 4.2-inch liquid crystal multi-information display in the centre of the meter panel is easy to read and features information on vehicle status, external temperatures, ECO drive assist system and more.

DYNAMIC SHIELD

Built on the philosophy of 'form following function', the Dynamic Shield is designed to express high performance and engineered for active safety; to safeguard both people and car.

READY TO GO THE DISTANCE WITH YOU

From the newly developed engine to the drive system and technology, every feature and function ensures a smooth drive every time with optimal engine performance and fuel economy.

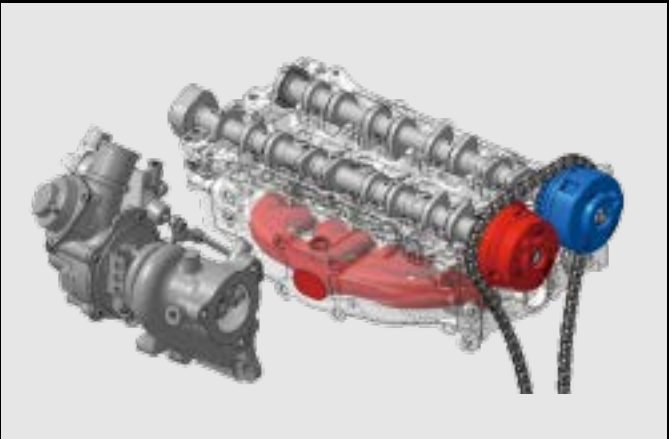

PERFORMANCE AND FUEL ECONOMY

1.5L TURBO MIVEC ENGINE

Streamlined for efficiency and turbocharged for powerful torque at low-to-mid rpm, the newly developed engine puts instant acceleration at your command – made possible by direct fuel injection, an exhaust manifold-integrated cylinder head, sodium-filled exhaust valves, MIVEC (Mitsubishi Innovative Valve timing Electronic Control system) and more.

SUPER-ALL WHEEL CONTROL (S-AWC)*

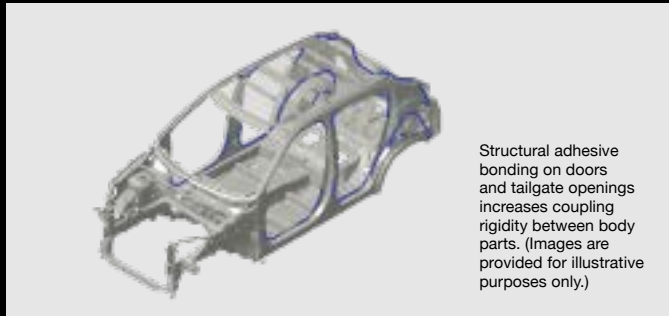

Raise your road confidence with S-AWC, which detects road conditions on a real-time basis to improve vehicle performance. A combination of electronically controlled 4WD with Mitsubishi Motors' proprietary Active Yaw Control (AYC), which uses braking to optimally distribute torque to the wheels, S-AWC helps you maintain control without extra steering effort even if you brake or accelerate too hard.

*Available for 4-wheel drive model only.

INVECS-III CVT WITH 8-SPEED SPORTS MODE

The advanced CVT supports smooth, powerful acceleration and outstanding fuel efficiency with a new step shift control that creates the satisfying sensation of shifting gears.

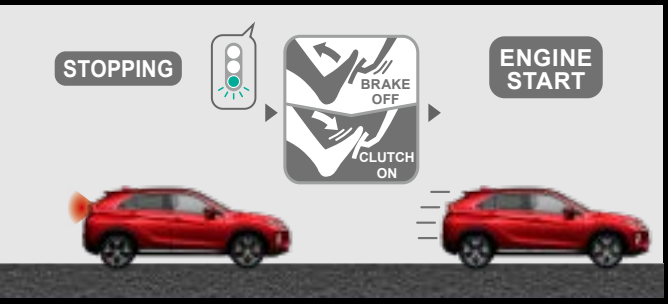

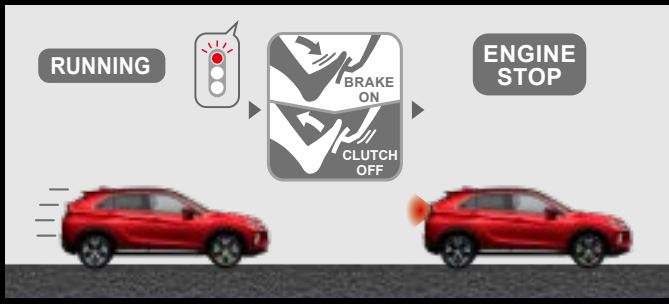

PRECISE & RESPONSIVE HANDLING

With a fine-tuned suspension, responsive steering and supreme body rigidity, handling is stable, intuitive and predictable. And no matter what road you travel on, all passengers enjoy an extremely comfortable ride.

AUTO STOP & GO (AS&G)

Reduce fuel consumption and CO₂ emissions with Auto Stop & Go (AS&G) – which automatically shuts off the engine when the vehicle is stationary. The engine restarts immediately when you remove your foot from the brake pedal.

Note: If Brake Auto Hold is active, the engine remains off until the accelerator pedal is pressed.

► **DUAL ZONE AIRCON**

The powerful air conditioning system provides separate temperature settings for the driver and front passenger.

OPTIMISED FOR YOUR ULTIMATE DRIVING ENJOYMENT

Thoughtful features such as Head Up Display, Smartphone Link Display Audio, and Dual Zone Aircon have been fitted in the Eclipse Cross, not just to enhance everyone's riding experience, but for everyone's convenience as well.

► **HEIGHT-ADJUSTABLE LEATHER-WRAPPED STEERING WHEEL WITH AUDIO CONTROL**

Access important functions easily with the controls conveniently mounted on the steering wheel.

COMFORT & CONVENIENCE

HEAD UP DISPLAY (HUD)

Drive safely with the Head Up Display, which conveys vehicle information in full colour above the meters for easy viewing. You can even adjust the image brightness and display height to suit your preference.

SMARTPHONE LINK DISPLAY AUDIO (SDA) WITH TOUCHPAD CONTROLLER*

Enjoy intuitive operation of the Smartphone Link Display Audio (SDA) for maps, music and calls, not only with your voice, but also the Apple CarPlay-compatible touchpad controller.

TOUCHPAD CONTROLLER

Located next to the shift knob on the centre console, the touchpad controller is easy for the driver to operate without moving, even when the car is on the move.

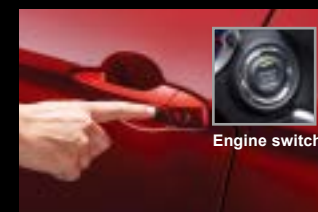

Cursor: Drag 1 finger
Select: Press 1 finger

Volume: Flick 2 fingers up/down
Tuner: Flick 2 fingers left/right

REAR SEAT ADJUSTMENT

Slide the comfortable rear seats with 9-step reclining and 200mm sliding adjustment all the way back for class-leading legroom. Or individually lower the 60:40 split seatbacks for more storage space!

Engine switch

KEYLESS OPERATION SYSTEM (KOS)

Lock or unlock the doors and tailgate with the press of a button on the outside of the front doors or tailgate, and start or stop the engine with the engine switch in the cockpit, as long as you have the key.

PADDLE SHIFTERS

Drive with absolute ease & convenience – electronically shift gears without removing your hand from the steering wheel with paddle shifters.

CRUISE CONTROL

Maintain a steady speed on road trips without having to keep your foot on the accelerator pedal, and disengage the system when necessary by stepping on the brake pedal.

SPEED LIMITER

The speed limiter prevents the car from exceeding the preset speed, although you may need to apply the brakes when travelling downhill. An alarm will sound and warning displayed to alert you when the speed limit is exceeded.

RAIN SENSOR

The rain sensor activates the windshield wipers automatically when moisture is detected on the windshield.

WELCOME & COMING HOME LIGHT

The interior lighting, Daytime Running Lights and rear tail lamp will light up when the car door has been unlocked. Pull the light stalk (high beam) to activate the headlight when the car has ceased ignition – it goes off automatically after 30 seconds.

TAKING PROTECTION TO THE NEXT LEVEL

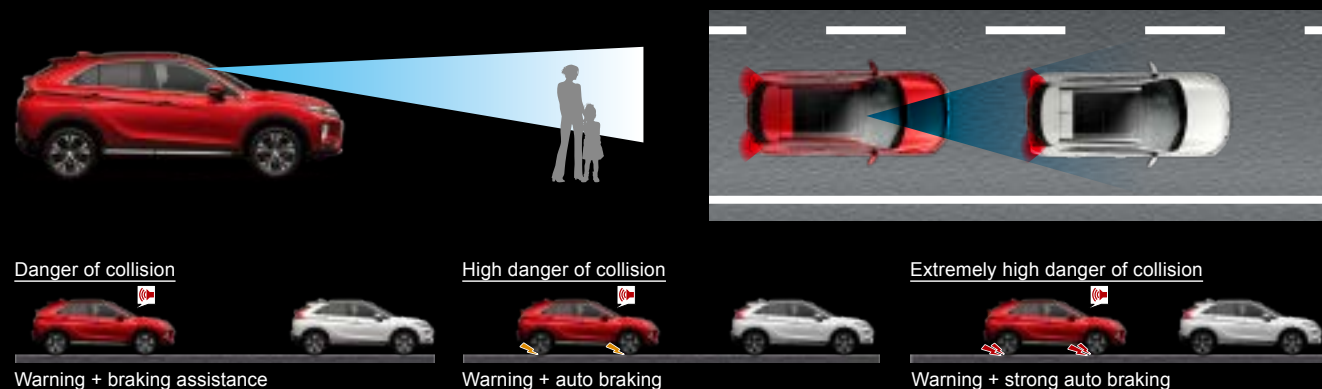

Numerous safety features have been put in place to ensure an all-round safe driving and riding experience for all aboard the Eclipse Cross. Plus, our high safety standards have even been recognised by the New Car Assessment Program for Southeast Asian Countries (ASEAN NCAP).

SAFETY

FORWARD COLLISION MITIGATION SYSTEM (FCM)

When a collision is unavoidable, this system helps reduce damage by responding to vehicles and pedestrians via camera and laser radar.

Note: FCM operation is determined by road conditions and may not operate or be effective in all circumstances. It is not a replacement for safe considerate driving. The driver is responsible for the operation of the vehicle and must remain alert and in control at all times.

MULTI AROUND MONITOR

The views from cameras mounted on the front, rear and sides of the vehicle (including a bird's-eye view) can be displayed in various combinations to reveal blind spots and help you park more safely.

Rear view + Bird's-eye view

7 SRS AIRBAGS

Front airbags, side airbags, curtain airbags and a driver's knee airbag help protect you and your passengers in the event of a collision.

ASEAN NCAP RATING

ASEAN NCAP, the leading authority on auto safety in ASEAN, has given the Eclipse Cross five stars – scoring overall maximum points for providing good protection to both drivers and passengers (child and adult), and pedestrians alike.

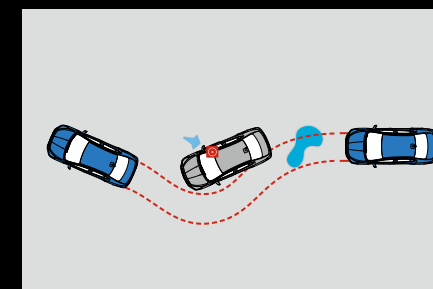

REINFORCED IMPACT SAFETY EVOLUTION (RISE) BODY

Collision safety performance is significantly enhanced by Mitsubishi Motors' RISE (Reinforced Impact Safety Evolution) body, which efficiently absorbs energy and maintains high cabin integrity in the event of a collision.

ANTI-LOCK BRAKE SYSTEM (ABS)

The four-wheel Anti-lock Brake System reacts quickly to prevent wheels from locking up during emergency braking so you can maintain greater steering control, even on slippery roads.

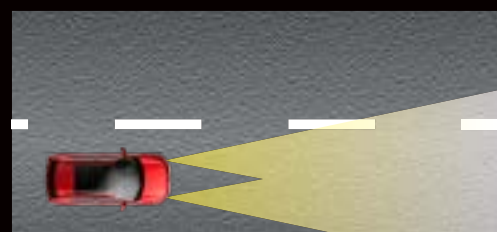

EMERGENCY STOP SIGNAL (ESS)

This reduces the possibility of rear-end collisions due to sudden braking by alerting vehicles approaching from behind through rapid and automatic blinking of the hazard warning lamps.

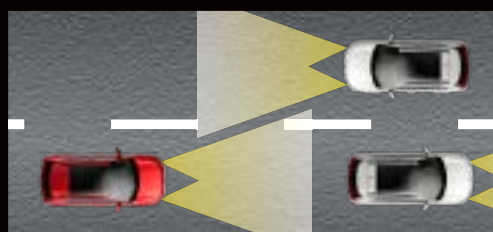

AUTOMATIC HIGHBEAM (AHB)

High beam

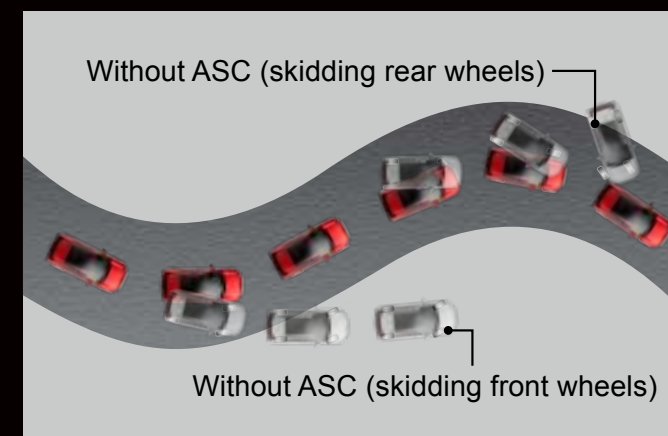

Low beam

For increased safety, comfort and driving ease at night, the high beams automatically switch to low beams when vehicles are detected ahead and back to high beams after, so you don't have to take your hands off the steering wheel to switch it manually.

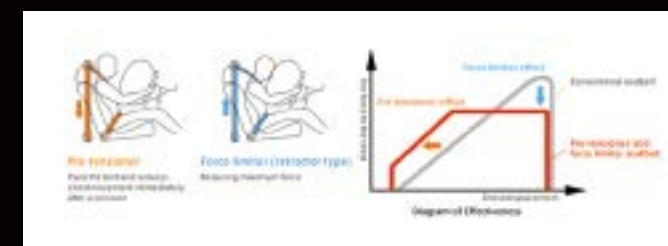

ELECTRIC PARKING BRAKE WITH BRAKE AUTO HOLD

A replacement for the traditional parking brake, you just have to pull up the switch to apply the parking brake or push it down to release it. If Brake Auto Hold is active, the car will remain stationary even if you release the brake pedal – just step on the accelerator to release it.

ACTIVE STABILITY CONTROL (ASC)

When wheels lose their grip on slippery surfaces or while turning, ASC automatically adjusts engine output and applies braking force at the appropriate wheels to help maintain control and prevent skidding.

PRETENSIONERS & CHILD SAFETY FEATURES

The pretensioners automatically tighten the belts in the event of a front collision to help restrain the driver and front passenger, and reduce the force of impact when the front airbags are deployed. Younger passengers are kept safe with the child lock feature on the back doors and ISO Fix anchor points for their car seats.

AFTER-SALES CARE

At Cycle & Carriage, we take pride in the competence of our after-sales staff, who are fully qualified to look after your Mitsubishi vehicle. Our team is always up to date with the latest developments thanks to a rigorous ongoing training programme conducted by our in-house trainers, as well as trainers from the Manufacturer.

With more than a century in the automotive industry, you can entrust your vehicle to us. We use the latest recommended diagnostic system, Grade A genuine parts and the right specifications of lubricants and consumables, to keep your Mitsubishi vehicle running at its optimal condition. You also receive peace of mind with our warranties:

Parts replacement: 2-years or 40,000 km*, whichever comes first.
Tyres replacement: 5 years* from date of purchase.

We also provide services such as guaranteed turnaround Express Services*, Drive-in Tyre Shop, Service Plans and many more.

*Terms & conditions apply.
*30% off final bill if we do not turn around within the guaranteed time.

10 YEAR
ENGINE
WARRANTY

5 YEAR
UNLIMITED
MILEAGE WARRANTY

10-YEAR ENGINE WARRANTY AND 5-YEAR UNLIMITED MILEAGE WARRANTY

Drive in total comfort and security. All Mitsubishi passenger cars* will come with a 10-year engine warranty† and a 5-year unlimited mileage warranty.

*Excludes electric models and commercial vehicles.
† Subject to a maximum mileage of 200,000 km or 10 years, whichever comes earlier.
Terms and conditions apply.

24/7 ROADSIDE ASSISTANCE

We know sometimes the unexpected happens. Please call our 24/7 hotline at 6475 9500 for any emergencies and we will be glad to assist.

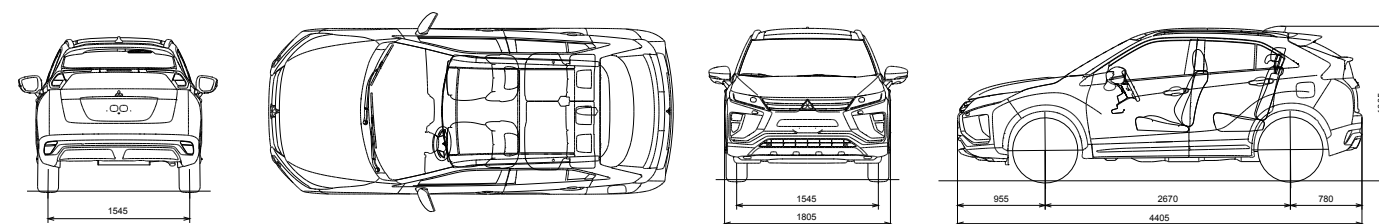

CUSTOMER ASSISTANCE

As your trusted partner, our Customer Assistance is always ready to assist you with any enquiry or feedback. Simply call 6471 9111 or email CustomerAssistanceCentre@cyclecarriage.com.sg.

TECHNICAL SPECIFICATIONS

	MITSUBISHI ECLIPSE CROSS
Capacity (cc)	1,499
Max Power (Ps/rpm)	163/5,500
Max Torque (Nm/rpm)	250/1,800 - 4,500
Fuel System	Electronically Controlled Direct Injection
Engine Type	DOHC MIVEC (4B40), 4-Cylinder, 16 Valve Petrol with Turbocharger & Intercooler
Wheel Drive	2WD
Transmission	INVECS III CVT (Continuously Variable Transmission) with 8-Speed Sports Mode
Top Speed (km/h)	200
0-100km (sec)	9.3
Fuel Economy (L/100km)	6.7
VES Banding	B
Fuel Tank Capacity (L)	63
Curb Weight (kg)	1,490
Length/Width/Height (mm)	4,405/1,805/1,685
Wheelbase (mm)	2,670
Turning Radius (m)	5.3
Tyre Size	225/55R18
