Ignite Your Senses

Sporty yet elegant, sleek yet solid, the Toyota Camry combines exceptional performance with seductive sophistication in one well-calibrated package. Featuring bold contours, a wide stance and stylish front and rear bumpers, Camry comes equipped with Toyota Safety Sense standard on the 2.5L model , so it protects as it entices.

Travel In Style

Camry continues to raise the bar on style and sensibility, taking you places with confidence while always looking its best. Its captivating silhouette comprises sweeping curves, flowing lines and distinct edges that embody sporty sophistication and redefine the sedan.

AUTO LEVELLING LED HEADLAMP

The headlights are equipped with a level sensor that keeps them aimed at the road regardless of the car's position.

REAR DESIGN & COMBINATION LAMP

The tail lamps incorporate LEDs in a seamless, eye-catching design. The overlapping line illumination gives a distinctive look that speaks of quality and sophistication.

POWER AUTO RETRACTABLE WING MIRROR

The wing mirrors fold neatly against the body at the touch of a button or when you lock your Camry. The 2.5L model also comes with reverse link and memory function that moves the mirrors to your preferred setting at the start of each journey.

Details & specifications may differ from pictures shown depending on variant.

FRONT DESIGN

With its bold stance, catamaran-inspired accents and black sport mesh grille, Camry combines sporty confidence with timeless elegance, while its chiselled surfaces, side rocker panels and lower centre of gravity ensures it stands out from the crowd whatever the occasion.

Details & specifications may differ from pictures shown depending on variant.

LUGGAGE SPACE

The improved luggage compartment offers ample space for up to four sets of golf bags or large suitcases, so you can be ready wherever life takes you.

Details & specifications may differ from pictures shown depending on variant.

Quality Performance with Intelligent Engineering

Camry pushes all the right limits for a perfect drive. Equipped with enhanced suspension for greater comfort, it features a lower, wider stance and a light yet sturdy body that promotes excellent handling and ride quality.

Power your Camry with a 2.5L or 2.0L 4-cylinder gasoline engine – both of which deliver exceptional fuel economy, high torque and remarkable agility. Whatever your choice, Camry promises to inspire with an impressive driving experience you won't forget.

KEY LINKED MEMORY FUNCTION

Drive your Camry just the way you like it. Camry remembers each key and automatically adjusts the seat, wing mirrors and steering wheel to your preferred setting the moment you enter your car.

*Only applicable for 2.5L

POWER-ADJUSTED TILT & TELESCOPIC STEERING COLUMN

With tilt and telescopic functions and computer control, not only can the steering column be adjusted to suit your driving comfort, but Camry can store your preferred position and make adjustments automatically when you enter your car.

*Only applicable for 2.5L

POWERED DRIVER SEAT & MEMORY FUNCTION

Automated controls help you adjust your seat for height, angle and leg room. Camry can store your favourite settings and automatically shift the seat to the right position every time.

*Only applicable for 2.5L

4.2" FULL COLOUR MULTI-INFORMATION DISPLAY AND 9" AUDIO DISPLAY HEADUNIT

Get all the information you need on a single screen, from speed and turn-by-turn directions to safety alerts and more. The intuitive, next-generation interface also integrates with mobile phone and car audio operations so you can focus on what's important.

DRIVER FOCUSED LAYOUT

From a slimmer instrument panel for better visibility, to steering switches that allow you more control of the wheel, to soft padding in frequently touched areas, Camry blends functionality with quality and sophistication.

Details & specifications may differ from pictures shown depending on variant.

REAR WINDSCREEN POWER SUNSHADE

The 2.5L model lets you take cover from the glare and heat of the sun at the touch of a button with the power-retractable sunshade.

BRAKE HOLD

Relax at traffic lights or on crowded roads as Camry keeps the brakes applied and releases them when you're ready to move.

Details & specifications may differ from pictures shown depending on variant.

DRIVER'S INTERIOR

PERFORMANCE

TRANSMISSION

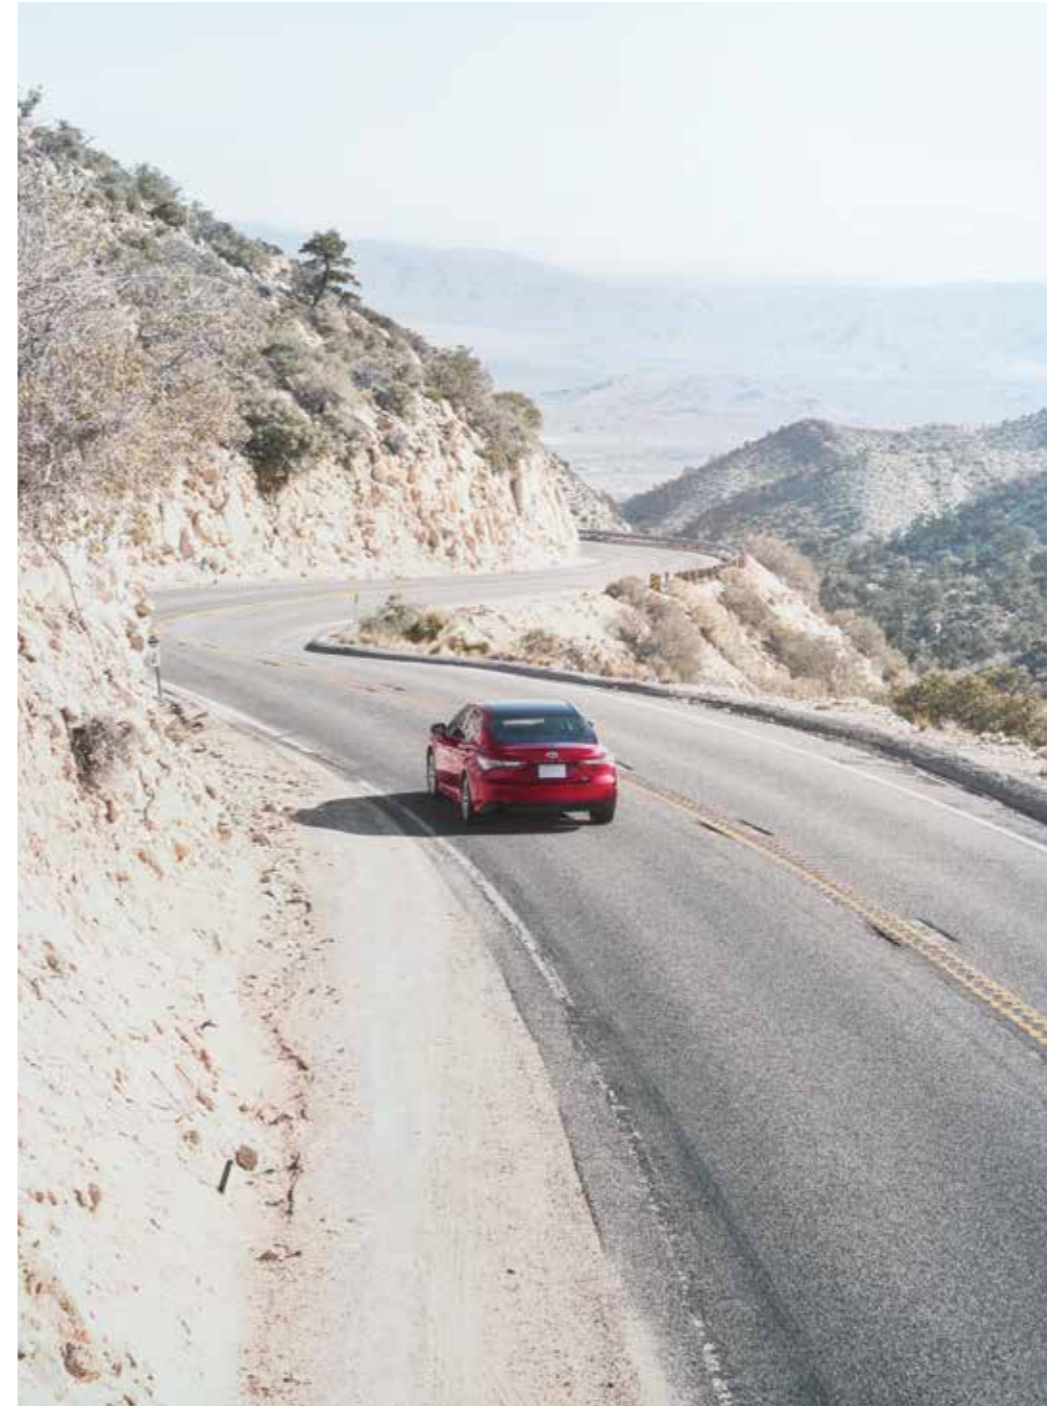

6-Speed Automatic Transmission (6AT) for 2.0L:

Featuring a compact and lightweight design, the 6AT promises exceptional fuel economy, superior drivability and a smoother, quieter ride.

Direct Shift 8-Speed Automatic Transmission (8DAT) for 2.5L:

Engineered with leading-edge technology, the electronically controlled 8DAT delivers superior power and improved acceleration while enhancing fuel efficiency.

Details & specifications may differ from pictures shown depending on variant.

ENGINE

Camry's 4-cylinder gasoline engine comes with the option of 2.0L as well as 2.5L with Dynamic Force. Both harness the D-4S direct-injection systems for superior fuel efficiency and a power-packed ride.

AERODYNAMICS

Camry features an ambitious aerodynamic design with distinctive styling that optimises air flow and minimises drag.

DIRECT-MOUNTED POWER STEERING SYSTEM

Camry's highly responsive power steering system offers you greater control and improved performance while reducing driver fatigue.

Keep Calm and Drive On

Drive sporty while staying secure as Camry continues to raise the bar on safety. Armed with hill-start assist control, seven airbags and a rear camera, now you can drive with confidence even in the fast lane.

7 SRS AIRBAGS

Strategically positioned at the front, sides, curtain and driver's knee, the airbags ensure all-round protection anywhere in the cabin.

Details & specifications may differ from pictures shown depending on variant.

REAR VIEW CAMERA

Camry's rear camera makes manoeuvring easy even in the tightest spots

HILL START ASSIST CONTROL

Take off on every incline with ease as Camry maintains brake pressure as you move from the brake pedal to the accelerator.

Details & specifications may differ from pictures shown depending on variant.

Toyota Safety Sense

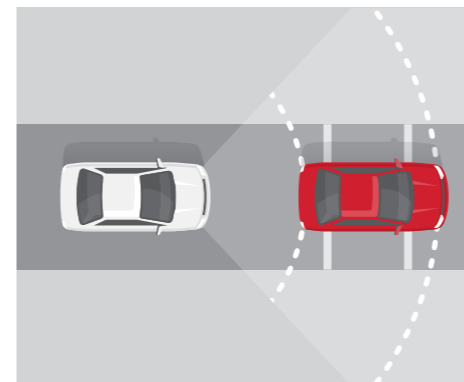

Details & specifications may differ from pictures shown depending on variant.

We've Got You Covered*

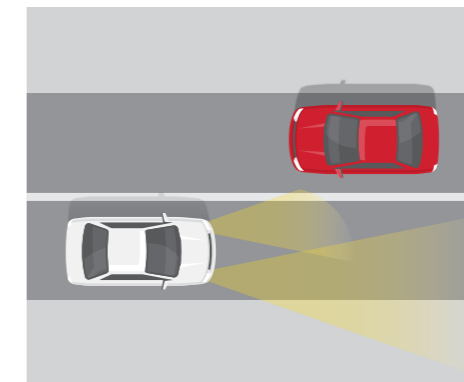

Toyota Safety Sense (TSS) is an active safety package designed to support driver awareness, decision making and vehicle operation so as to mitigate or prevent collisions. TSS is a combination of several cutting-edge safety systems – Pre-Collision System, Lane Departure Alert with Steering Assist, Automatic High Beam and Dynamic Radar Cruise Control. These safety systems utilize a millimetre wave radar sensor with a in-vehicle camera to help ensure you stay safe on the road at all times.

***TSS is only available for the 2.5L model.**

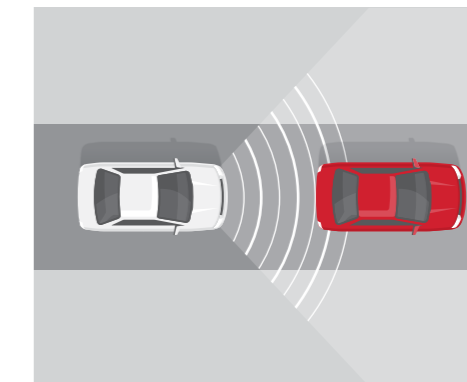

PRE-COLLISION SYSTEM (PCS)

The Pre-Collision System can detect and alert you to an oncoming vehicle in certain situations. By combining a millimetre-wave radar with a camera capable of shape recognition, the system will warn you of a possible collision and in certain conditions, brake automatically if you don't react in time.

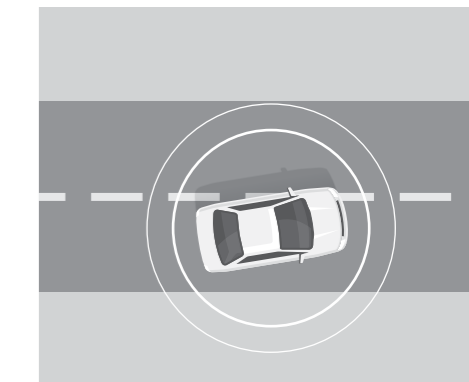

AUTOMATIC HIGH BEAM (AHB)

The Automatic High Beam system uses a camera to help detect oncoming vehicles from as far as 2,000 feet away. Depending on the circumstances, it will automatically switch the high beams on and off to enhance visibility while not blinding other road users, making night-time driving safer for everyone.

DYNAMIC RADAR CRUISE CONTROL (DRCC)

Dynamic Radar Cruise Control takes cruising to the next level. Using forward-sensing radar technology and an intelligent camera, the system is designed to detect the speed and distance of the vehicle traveling directly ahead of you and adjust your speed accordingly. In heavy traffic, it maintains a pre-set following distance, slowing when it shortens and accelerating back to your original cruising speed when the road clears.

LANE DEPARTURE ALERT WITH STEERING ASSISTANT (LDA)

The Lane Departure Alert system identifies visible lane markings and detects an inadvertent lane departure. It will then issue both an audible alert and visual warning on the Multi-Information Display (MID) screen. If the system determines that the driver is not taking corrective steering action, the Steering Assist function is designed to initiate and provide gentle corrective steering to help your car stay in the lane.

Making Ever Better Cars

At Toyota, we believe in continually evolving our vehicles, embracing the ever-changing needs of customers and inspiring future generations.

At the heart of our design philosophy stands the Toyota New Global Architecture (TNGA) – a collective movement across Toyota that breaks conventional thinking to re-innovate car-building from the ground up.

Aimed at meeting diverse individual needs in different countries, we seek to significantly improve driving performance and product competitiveness to engineer ever better cars that make our customers smile.

Making Customers Smile

Agility. Stability. Visibility.

TNGA IS ANCHORED ON THESE THREE PILLARS TO ENSURE YOUR TOYOTA IS FUN TO DRIVE

We dramatically enhance the performance of our core strengths - improving suspension systems, lowering the center of gravity and engineering a strong, rigid and balanced chassis. In doing so, we elevate the quality of every vehicle that leaves our factories, offering you peace of mind, greater comfort and an impressive driving experience.

At the same time, we give our designers the freedom to push the limits of design and aesthetics on every model, refining signature features, emphasizing their personalities and making them more desirable.

The result is a car with enhanced Agility, Stability and Visibility. A car that is fun to drive.

TNGA – A Core Part of Our DNA

Building our core is synonymous with building Toyota's future. As we continue to pioneer high-level vehicles, we seek to champion the future of automobiles in the decades to come.

OUR PASSION IS TO CREATE VEHICLES WITH UNMEASURABLE ATTRACTION THAT MOVE PEOPLE'S HEARTS.

We place strong emphasis on emotional benefits that cannot be measured. These extend to the thrill of looking at or getting into the vehicle.

Five areas through which Toyota aims to make **Ever Better Cars** Our engineer's beliefs that drive TNGA

DRIVING QUALITY

We build vehicles that are well-balanced to a high degree and are satisfying to drive.

COMFORT

We engineer total comfort that engages the five senses of everyone on board.

USER-FRIENDLINESS

We insist on creating vehicles that embrace the user in every ride.

PRIDE OF OWNERSHIP

We design vehicles that excite people and inspire the future.

SECURITY

We aim for zero casualties from road accidents while offering peace of mind with the highest levels of safety and security.
