

# The Mercedes-AMG GLA 45 S 4MATIC+

Engine	Inline-4
Displacement (cc)	1,991 cc
Transmission	AMG SPEEDSHIFT DCT 8G
Power (hp/ rpm)	421 hp / 6,750 rpm
Torque (Nm / rpm)	500 Nm / 5,000-5,250 rpm
0-100km/h acceleration (sec)	4.3 sec
Top speed (km/h)	270 km/h
Kerb weight (kg)	1,765 kg
Fuel consumption (l/100km)	9.4
VES band	C2

## Mercedes-AMG GLA 45 S 4MATIC+ - Instant Yeah!

High performance with a good helping of utility: the new Mercedes-AMG GLA 45 S 4MATIC+ truly spearhead the line-up of compact power-SUVs. Featuring as they do the new four-cylinder M139 turbo engine and a particularly agile AMG Performance 4MATIC+ all-wheel drive system, offer unlimited driving enjoyment coupled with distinctive design. What is more: they bring an element of sports-car flair to the compact SUV segment. Whether as an assured partner in the city or as an outstanding performer on the race track: the Mercedes-AMG GLA 45 S 4MATIC+ feel themselves at home wherever they are.

## AMG Performance: 4-cylinder turbocharged engine

For the first time, the new high-performance four-cylinder has two-stage fuel injection. In the first stage the particularly fast and precisely operating piezo injectors supply fuel to the combustion chambers at a pressure of up to 200 bar. This is a multiple process at times, and is controlled by the engine management system as required. In the second stage there is additional intake manifold injection using solenoid valves. This is needed to achieve the engine's high specific output. The electronically controlled fuel supply has an operating pressure of 6.7 bar.
