

The GLE Coupé

Mercedes-Benz

Ready to make your mark?

Then take a seat. The new GLE Coupé is just made to let itself go and take every corner of the world by storm. With its sensationally sporty design. A revolutionary new cockpit. And a fully active suspension that sets the benchmark in its class.

A silver Mercedes-Benz GLE Coupé is shown from a rear three-quarter view, driving on a city street at night. The car is in motion, with a blurred background of city lights and buildings. The car's design features a sleek, sloping rear line and large wheels. The text "Some personalities are hard to miss." is overlaid on the right side of the image.

Some personalities
are hard to miss.

The new GLE Coupé really stands out. With a sensational design that is more sporty and stylistically confident than ever. A less upright windscreen, low body and sloping rear line form the elegant silhouette. Wheels of up to 55.9 cm (22 inches) in size emphasise the SUV character of the GLE Coupé.

Exhilaration for all the senses.

Inside you are welcomed by two large, fully digital instruments that share the same elegant glass cover. Also new are the high-quality sports seats which give the driver and front passenger tangibly more support, allowing even more dynamic motoring without compromising on comfort.

Get in. Then get out
feeling more relaxed.

You can choose from 64 ambient colours as well as a range of different interior fragrances and massage programmes in the new GLE Coupé. Or activate an optional ENERGIZING programme such as "Vitality", in which case all these comfort features are coordinated automatically.

The new GLE Coupé.
An expression of inner strength.

Head-up display.

The best outlook for sporty driving enjoyment and an assured driving experience: the optional head-up display transforms your windscreen into a stunning digital cockpit. This means you always have a direct view of key information. Your full attention remains on the road and the traffic conditions in front of you.

Driving Assistance package Plus.

The optional Driving Assistance package Plus offers maximum comfort and safety on the road to autonomous driving. As a supplement to the Driving Assistance package you get Active Stop-and-Go Assist, which takes the strain off you on motorways. A further benefit of this package is PRE-SAFE® Impulse Side, which can provide additional protection in side-on collisions caused by other road users.

Widescreen Cockpit.

Inspirational design meets a fully digital display with flexible presentation options: the Widescreen Cockpit enables information to be truly experienced. The desired content can be positioned individually and the host of functions controlled intuitively thanks to touch technology.

Mercedes-Benz User Experience.

You can now control and adjust almost everything intuitively using just one finger in the new GLE Coupé. It's all very straightforward, via either the large touchscreen, the new touchpad or the Touch Control buttons on the new steering wheel. A quick tap is all it takes to customise the style of the display, the ambient lighting or the infotainment system to your requirements.

ENERGIZING package Plus.

The optional ENERGIZING package Plus is unique. It provides the highest level of comfort for all the senses. To this end, a maximum of premium features are combined with innovative intelligence. The result is quite fascinating: your Mercedes can vitalise and cosset you in specific ways. For prolonged alertness at the wheel and an exceptionally pleasant drive.

Burmester® high-end 3D surround sound system.

Sound on a par with that of luxury home music systems. These optional speakers in the roof liner compose a three-dimensional sound. They conduct the system like your personal orchestra – with VIP settings for individual seats or style settings such as “Live” or “Easy Listening”.

MULTIBEAM LED headlamps.

Giving you perfect visibility: the adaptive MULTIBEAM LED headlamps with individually controllable LEDs react to the traffic situation. Partial main beam blocks out other road users without dazzling them. When the road is clear, ULTRA RANGE Highbeam increases the range by 150 metres. The cornering and active light functions also light up the field of vision in optimal style.

Wheels.

Another highlight: you have the option to choose wheels of up to 55.9cm (22 inches) in size to clearly emphasise the SUV character of the new GLE Coupé.

The AMG Line.

Expressive styling for an impressive appearance: the AMG Line exterior sharpens the sporty character of your vehicle and clearly differentiates it from the base model. The visual effects make your vehicle look lower and more dynamic, allowing you to make a clear statement in support of powerful design.

The EXCLUSIVE Interior design and equipment line.

The EXCLUSIVE Interior allows you to show what matters to you: the utmost in elegance and top-class quality, down to the most minute detail. Luxurious highlights in leather and wood characterise the refined atmosphere of your interior and reflect your good taste. With the comfort seats you can also enjoy a very high level of comfort on long journeys and arrive relaxed at your destination.

The Night package.

More character – expressive style. In combination with the AMG Line, the optional Night package adds striking highlights in the form of exclusive black design features. These accentuate the sporty character and athletic design idiom of your vehicle. Ideal for individualists who appreciate an expressive design.

AIRMATIC package.

In the AIRMATIC package, an adaptive damping system meets state-of-the-art air suspension. The result: an intelligent comfort suspension which is able to adjust automatically to the driving conditions, speed and load. As a result you benefit from counterbalancing driving stability, with first-class comfort on poor as well as good road surfaces.

E-ACTIVE BODY CONTROL.

Superior ride comfort in any situation: the optional E-ACTIVE BODY CONTROL is the synthesis of comfort, precision and dynamism – combined with unique off-road qualities. Experience the first-class effects of a state-of-the-art, fully active suspension designed to compensate for pitch, roll and shocks. On all roads and off the road. In good as well as poor driving conditions.

Not an SUV. An AMG.

Every Mercedes-AMG is a masterpiece in its own right, with an unmistakable character. What unites our performance vehicles and sports cars is their irrepressible sporting spirit. Their passion for top performance. It is generated at the point where engineering skill meets a very special attitude: the spirit of AMG. We believe that you have to keep on challenging limits in order to achieve new goals. We accept nothing as a given. Because limits are imposed by people, and it's also people who can overcome them. It's this attitude that enables us to achieve outstanding performance for motor racing – and for the road.

Welcome to the world of AMG.

SPORT — F O R — GOOD

Mercedes-Benz AG is one of the founding partners of the worldwide “Laureus Sport for Good Foundation”, which was established in 2000. It is the Mercedes-Benz brand’s most important social initiative. Laureus Sport for Good supports children and young people in need through social sports projects, opening up new perspectives and imparting important values such as team spirit, respect and determination. “Change the Game for Kids” is our mission statement which we wish to share with you. In buying a Mercedes-Benz you are supporting the “Laureus Sport for Good” movement.

Please note: changes may have been made to the product since the editorial deadline (Nov 2020). The manufacturer reserves the right to make changes to the design, form, colour and the product specification during the delivery period, provided these changes, while taking into account the interests of the vendor, can be deemed reasonable with respect to the purchaser. Where the seller or the manufacturer uses symbols or numbers to describe an order or the subject of an order, no rights may be derived solely from these. The illustrations may show accessories and items of optional equipment which

are not part of standard specification. For current and more specific information in relation to the regulations and requirements in your own country and their consequences, please contact your nearest authorised Mercedes-Benz Passenger Car Dealer, Cycle & Carriage at 6298 1818.
