

ALPHARD

 **TOYOTA**

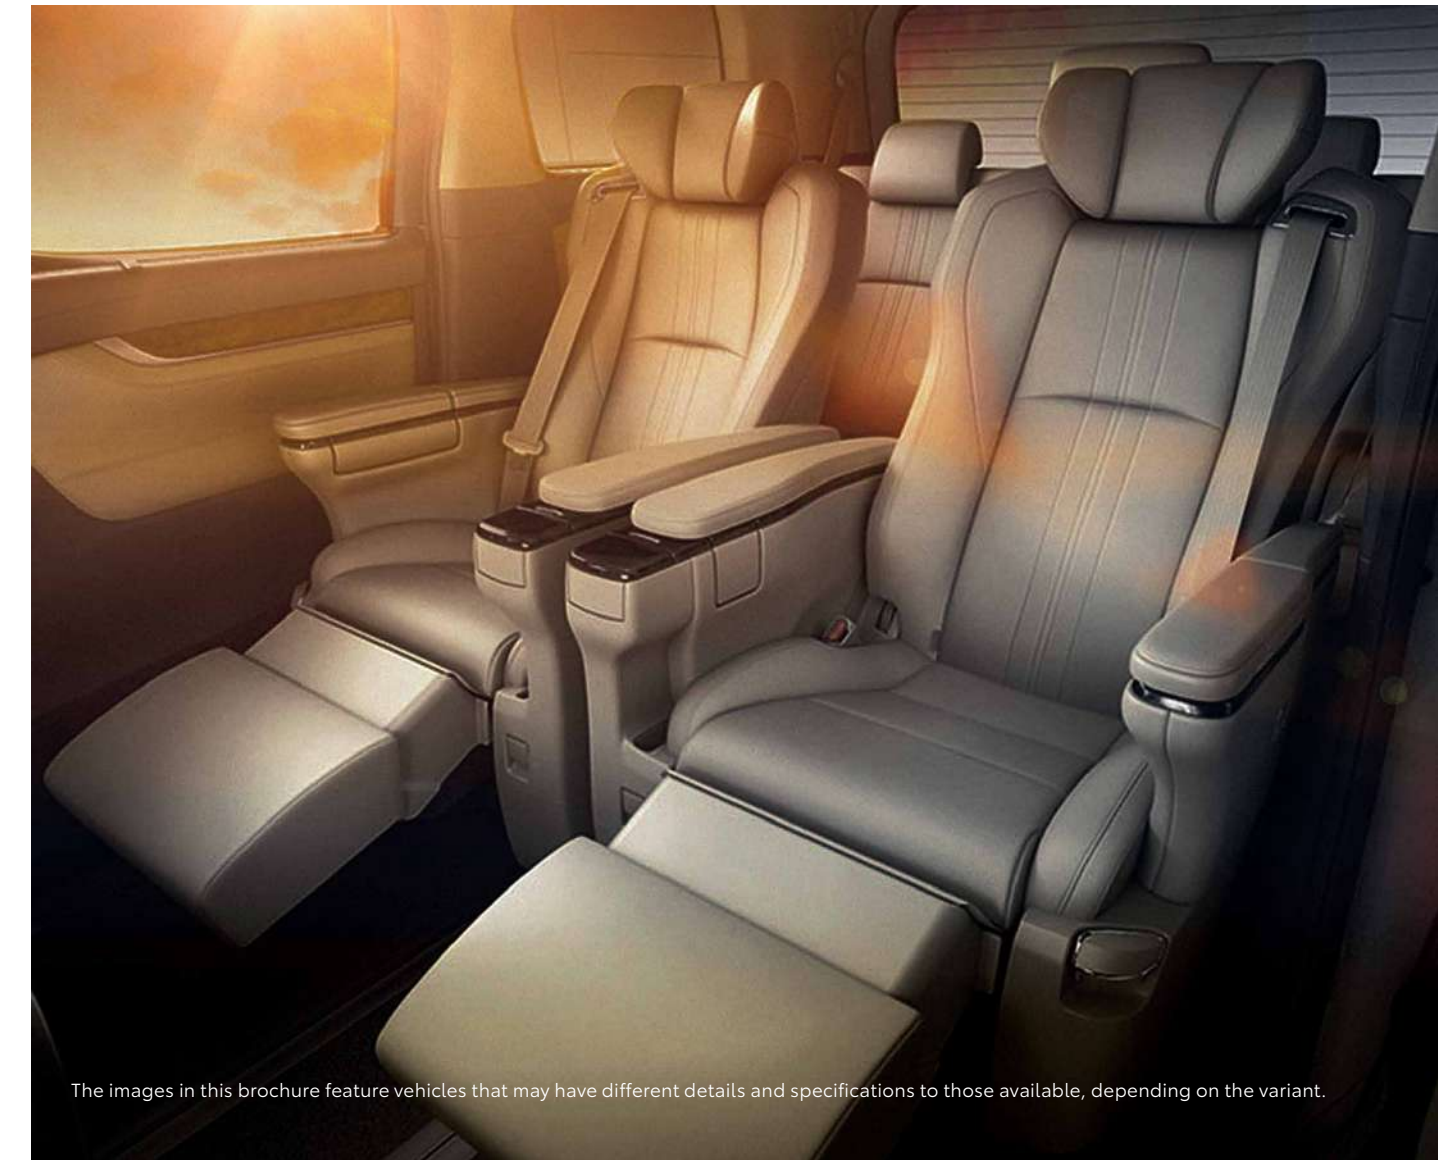

ALPHARD HYBRID

TRAVEL FIRST CLASS. TRAVEL FURTHER.

Luxury and efficiency on a grand scale. That's the incomparable experience offered by the new **Toyota Alphard Hybrid**—a truly dignified way to travel.

From an evocative, refined cabin to the quiet hybrid performance, the Alphard Hybrid isn't just your first-class suite—it's a carefully crafted experience that'll make every journey an indulgent respite; one you'll look forward to again and again. Go further in the lap of luxury today.

The images in this brochure feature vehicles that may have different details and specifications to those available, depending on the variant.

A LOOK THAT CAPTIVATES

1/POWER SLIDING DOOR WITH OBSTRUCTION DETECTION

Make a grand entrance with the smooth power sliding doors, both equipped with easy closing and obstruction detection—for greater protection and convenience, right from the start of your journey.

2/FRONT LAMPS WITH SEQUENTIAL TURN SIGNALS

Looking further ahead is a key part of being exceptional, and the Alphard Hybrid is no exception. Its front lamps with sequential turn signals enhance visibility in every situation, equipped with LEDs that function as daytime, clearance, fog, and cornering lights.

3/REAR COMBINATION LAMPS WITH SEQUENTIAL TURN SIGNALS

Even our rear lamps are considered and designed to help craft a better drive, with low energy LEDs used to aid fuel economy and aero stabilising fins on the outer lens to ensure excellent stability.

4/LOWER REAR SEAT ACCESS STEP

Your easiest step into greater luxury begins with the lower rear seat access step, while the wide rear door makes accessing the back of your first-class cabin that much easier. The long assist grips also make for a convenient experience for all ages when embarking and disembarking.

A BEYOND FIRST-CLASS EXPERIENCE

1/

2/

3/

4/

5/

1/SEAT VENTILATION

Stay cool and comfortable on long journeys with the ventilated driver and passenger seats delivering a refreshing, cooling sensation—your sanctuary on the road.

2/AMBIENT LIGHTING

Customise the way you experience luxury with 16 colour choices for the cabin's LED ceiling lighting to let you set the mood—a truly bespoke experience on every drive.

3/TRI-ZONE AIR CONDITIONING WITH NANOE™

The sophistication extends to the cabin's climate, with tri-zone air conditioning allowing for complete climate control over the front left, front right, and rear areas of the Alphard, while the nanoe™ technology disinfects the cabin—giving you some cool security you can count on.

4/ONBOARD GPS NAVIGATION

A built-in co-pilot, the onboard GPS navigation ensures you're always on track, keeping you seamlessly connected with the best route to your destination.

5/TWIN MOONROOF

Your very own observatory, anywhere you go. The twin moonroof brings an added sheen of refinement to the cabin, with one in the front and one at the rear—a sophisticated cherry on top of this evocative, first-class cabin experience.

6/CAPTAIN & OTTOMAN SEATS

Just lean back and relax. Indulge in truly extravagant comfort with spacious captain and ottoman seats, wrapped in genuine leather upholstery.

EXCEPTIONAL CONVENIENCE AND FUNCTIONALITY

1/

1/DRIVE MODE SELECT

Enjoy the luxury of choice. Select between NORMAL mode for everyday driving, ECO mode for enhanced efficiency, and EV mode for emission-free, all-electric travel at low speeds.

2/VERSATILE SEATING CONFIGURATIONS

Every journey is different, and so is every passenger. That's why the Alphard Hybrid has up to 10 different available seating configurations, accommodating a range of needs and delivering incredible comfort that meets every passenger's desires.

3/AMPLE BOOT SPACE

Enjoy unrivalled space inside your first-class suite on the road, with a boot that can hold up to 6 golf bags and plenty of storage options around the cabin—even with the third row occupied.

HYBRID

PERFORMANCE AND HYBRID EFFICIENCY
ON A GRAND SCALE

THE ENHANCED HYBRID EXPERIENCE

1/

Self-charging hybrid system means there's never any need to plug the Alphard into a power outlet.

2/

Lower CO₂ emissions means that your luxurious drive is a conscious one, too.

3/

The **Toyota Hybrid Synergy Drive** delivers better, smoother performance.

4/

Enjoy a remarkably **quiet cabin** experience with minimised engine noise and vibration.

5/

Greater efficiency with no caveats—the powerful hybrid battery requires no additional maintenance to run.

1/FINELY-TUNED DOUBLE WISHBONE SUSPENSION

A solid foundation makes for a smoother drive. That's why we've paid special attention to our double wishbone suspension, finely tuning it for excellent stability and ultimately enabling it to deliver a truly luxurious experience all around the cabin—maximising the comfort for your treasured passengers.

2/ELECTRIC 4WD SYSTEM (E-FOUR)

The exceptional 4WD system helps to improve acceleration and overall handling, optimising fuel efficiency, power and control in any driving situation.

Toyota
Safety
Sense

YOUR SAFETY, ASSURED

1/AUTOMATIC HIGH BEAM (AHB)

This smart sensor detects the headlights and taillights of cars in front of you, and **switches automatically between high and low beams** to ensure you never dazzle other drivers, making driving safer for you and your fellow road users.

2/PRE-COLLISION SYSTEM (PCS)

In certain situations, the **Pre-Collision System** with Pedestrian Detection can detect and alert you to an oncoming vehicle or a pedestrian—including while turning corners. By combining a millimetre wave radar and a camera capable of recognising shapes, **the system will warn you of a possible collision and, in certain conditions, brake automatically if you don't react in time.**

3/DYNAMIC RADAR CRUISE CONTROL (DRCC)

Enjoy effortless cruising with **Dynamic Radar Cruise Control (DRCC)**. Forward-sensing radar technology and an intelligent camera enable the system to detect the speed and distance of the vehicle traveling directly ahead of you and adjust your speed accordingly. In heavy traffic, it **maintains a pre-set following distance**, slowing when it shortens and accelerating back to your original cruising speed when the road clears.

4/LANE TRACING ASSIST (LTA) AND LANE DEPARTURE ALERT (LDA)

Lane Tracing Assist (LTA) uses the lines on the road and the vehicles ahead of you to **help keep the car centred and in its lane**. The **Lane Departure Alert (LDA)** system identifies visible lane markings and detects any inadvertent lane departure. It will then give you an audible alert and a visual warning. If the system determines that the driver is not taking corrective steering action, the Steering Assist function is designed to initiate and provide gentle corrective steering to **help your car stay in the lane**.

2/

3/

4/

ADDITIONAL SAFETY FEATURES

BLIND SPOT MONITOR

The Blind Spot Monitor will alert you to the presence of vehicles that may have entered the blind spots on either side of the vehicle, helping to make lane changes safer.

7 SRS AIRBAGS

Assurance, even in emergency situations. Get cabin-wide protection with 7 SRS airbags, including front, side, curtain, and driver's knee airbags.
