## LIVE LIFE INSPIRED

Your world is an amazing place. Amplify every experience with the all-new Honda HR-V, now sleeker and sportier with fuel-efficient dynamic performance modes, a more spacious interior, and class-leading safety technology. Now available in petrol and hybrid options.

The next-generation HR-V embodies the fun and freedom of driving with its coupe-inspired exterior and SUV styling. A distinctive body-coloured front grille, crisp lines, elegant rear panel and tailgate — every inch of this car drives you toward adventure.

**HR-V**  
1.5 DX

**HR-V**  **HEV**  
1.5 HYBRID

Specifications may vary from model(s) shown.

## FORM AND FUNCTION

From the aerodynamic body that delivers both performance and fuel efficiency to the hands-free tailgate, this is the crossover SUV that integrates top-class aerodynamic performance and intelligent functions into its impressive design to give you a more exciting ride.

**Auto LED Headlights and Daytime Running Lights**  
Illumination for enhanced safety.

**Rear LED Tail Lights with LED High Mount Stop Light**  
Sleek curves, aerodynamic design.

**Smart Keyless Entry**  
Seamless door handles with smart keyless entry and One-Push Start.

**18" Alloy Wheels\***  
Sporty rims that spell sophistication.

**Hands-Free Power Tailgate\***  
With the added convenience of a Walk-Away Close Button.

\*Only available for e:HEV variant. Specifications may vary from model(s) shown.

## CONNECTING YOU AND YOUR WORLD

The all-new HR-V is designed for unparalleled comfort. Body stabilising front seats help reduce fatigue with their next-generation mat structure, while interior controls are closer within reach. Revel in the sense of space and visibility offered by a higher clearance, gently sloped instrument panel, and side mirrors placed lower on the door.

### Air Diffusion System

L-shaped vents create a more natural flow of air within the car.

### ULTRA Seats

With additional rear leg room and additional 2-degree incline.

### Rear Ventilation Outlets

Adjustable vents ensure comfort for all passengers.

### Touch-Control Cabin Lights

Create a comfortable ambience for relaxing inside the car.

### Large Boot Space

Both rear seats can be lowered to maximise the cargo area.

## SMOOTH MOVES

Look forward to getting in the driver's seat and taking control. Get going with One-Push Start, navigate with ease on the 9" display audio, and optimise for performance or fuel efficiency with 3 Drive Modes.

### 9" Display Audio with Apple CarPlay / Android Auto Support\*

Touchscreen panel supports USB and Bluetooth connectivity, wireless Apple CarPlay, Android Auto Support, and other smartphone apps.

### 7" TFT Multi-Info Display Meter\*

Choose how much advanced driver-assistance system information is displayed, to reduce distraction while driving.

### Electric Parking Brake

Easily set or release the parking brake with a switch.

### Smart Entry with One-Push Start

Start the engine or shut it off without having to remove your key fob from your pocket or purse.

### 3 Drive Modes (Normal, Sport, Econ)\*

Toggle between Normal mode for relaxed street driving, Sport mode for sharpened response and heightened enjoyment, and Econ mode to optimise fuel efficiency.

\*Only available for e:HEV variant. Specifications may vary from model(s) shown.

# e:HEV FOR IMPRESSIVE EFFICIENCY

The advanced e:HEV hybrid set-up seamlessly selects from three interchangeable system modes – Electric Vehicle (EV), Hybrid and Engine – that switch automatically under prevailing driving conditions. Its two motors and engine operate independently, so driving is highly efficient in every scene. Fuel economy is an impressive 4.3L/100km, and every journey is effortless and comfortable.

## Electric Vehicle (EV) Drive

Electric motor provides propulsion to the wheels only when the vehicle is stationary or driving at low speeds.

## Hybrid Drive

Electric motor provides propulsion to wheels. Petrol engine drives generator, supplying electricity to electric motor for added propulsion or to high voltage battery for charging.

## Engine Drive

Petrol engine provides propulsion to wheels. High voltage battery supplies electricity to electric motor for added propulsion. Electric motor provides electricity to high voltage battery through regenerative braking.

## Electric Vehicle (EV) Drive

Electric motor provides electricity to the high voltage battery through regenerative braking to boost efficiency.

# SMOOTH, EFFORTLESS JOURNEYS AHEAD

The self-charging hybrid system is engineered to deliver enjoyment to the driving experience. It comprises of two energy-dense electric motors, a 1.5-litre i-VTEC petrol engine, a lithium-ion battery and an innovative fixed-gear transmission, which all work harmoniously together to deliver the best ratio of fuel economy to acceleration in its class.

## e:HEV's TWO-MOTOR POWERTRAIN

1.5L DOHC i-VTEC®

Electric CVT with 2-Motor Hybrid System

## PETROL POWERTRAIN

1.5L DOHC i-VTEC®

# ELEVATING STANDARDS IN SAFETY

Drive with confidence and be well-protected on the road with advanced safety and driver-assistive technology enhancements like Hill Start Assist (HSA) and Vehicle Stability Assist™ (VSA™). The HR-V also features Honda Sensing, an exclusive suite of safety technologies designed to give you a safe and intelligent ride like no other.

## Rear-View Camera

With dynamic guidelines, backing into a parking lot is easier no matter the size or lighting conditions.

## 6 Airbags System

As part of the world's first system developed by Honda, six quick-deploying airbags provide advanced passenger protection and injury reduction.

## Hill Start Assist and Hill Descent Control

Helps drivers to accelerate smoothly from a stop position on an inclined surface, and enables greater control on low-grip surfaces and steep descents.

## Vehicle Stability Assist™ (VSA™)

Regulates engine's output and selectively applies brakes to maintain traction on slippery roads. Helps bring car back on track during cornering when it deviates from its correct path.

## Anti-Lock Braking System (ABS)

Prevents wheel lock-up during emergency braking situations and on slippery road surfaces. It increases vehicle stability and control during deceleration, minimising accidents.

## Walk Away Auto Lock

Get hassle-free security with Walk Away Auto Lock.

# Honda SENSING

Setting new standards in safety technology, Honda Sensing is designed to protect you intuitively and without compromise. With an intelligent system of preventive and reactive features, every drive in the HR-V offers peace of mind whatever comes your way.

## Adaptive Cruise Control (ACC) with Low-Speed Follow (LSF)

Helps maintain a constant speed by automatically speeding up or slowing down to keep a set following distance behind the car ahead – all without having to keep a foot on the accelerator.

## Lane Keeping Assist System (LKAS)

Helps to keep the vehicle in the middle of a detected lane, preventing it from accidentally drifting out of its lane.

## Lead Car Departure Notification System

Notifies the driver with audio and visual alerts if the accelerator pedal is not depressed and the car in front has moved ahead.

## Collision Mitigation Braking System (CMBS)

Designed to detect and alert the driver of a potential collision. It also reduces vehicle speed to minimise impact if a collision becomes unavoidable.

## Road Departure Mitigation System (RDM)

Alerts the driver when it detects the vehicle may have unintentionally deviated from its lane or is suddenly leaving the roadway altogether.

# HR-V SPECIFICATIONS

HR-V 1.5 DX

HR-V 1.5 HX e:HEV

► DIMENSIONS		
Overall Dimensions (mm)	4340 (L) x 1790 (W) x 1580 (H)	4340 (L) x 1790 (W) x 1590 (H)
Wheelbase (mm)	2610	
Wheel Track - Front (mm) / Rear (mm)	1545 / 1550	1535 / 1540
Ground Clearance (mm)	185	195
Curb Weight (kg)	1254	1380
Turning Radius at Wheel Centre (m)	5.3	5.5
► ENGINE		
Engine Type	1.5L DOHC i-VTEC® Water Cooled, In Line 4-Cylinder Engine	
Fuel Supply System	PGM-FI (Direct Injection)	
Bore x Stroke (mm)	73.0 x 89.5	
Displacement (cc)	1498	
Compression Ratio	10.6:1	13.5:1
Maximum Power (kW(PS)/rpm)	87 (118) / 6600	78 (106) / 6000-6400
Maximum Torque (Nm(kg-m)/rpm)	142 (14.5) / 4300	127 (13.0) / 4500-5000
► HYBRID POWERTRAIN		
Hybrid System	-	e:HEV
Hybrid Battery	-	Li-ion Battery
Hybrid Battery Maximum Power (kW(PS)/rpm)	-	96 (131) / 4000-8000
