# Specifications

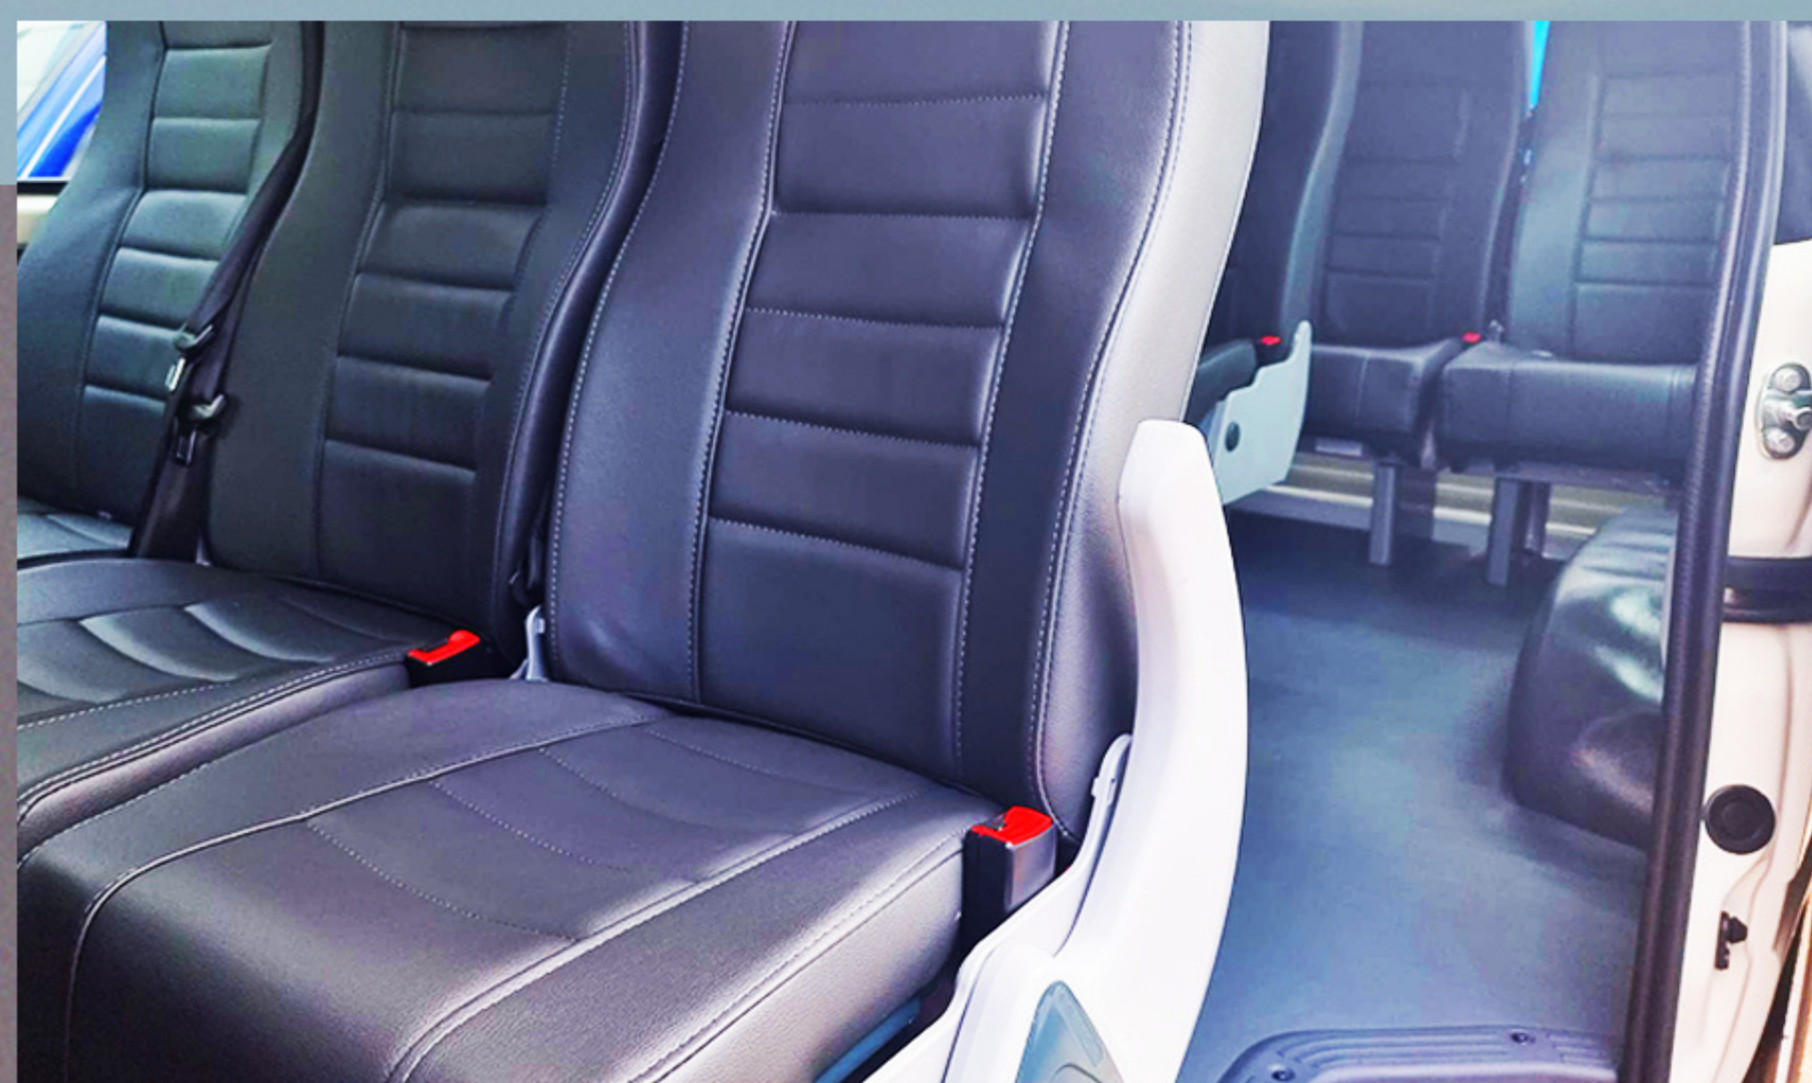

# 11 seater

## 100% Electric Minibus

The Golden Dragon Electric minibus is 100% electric, running on clean energy and it is cost effective. This 11 seater minibus is suitable to serve as transport for companies picking up and dropping off staff, ambulance, police units, to name a few.

Its height is below 2m, which enables it to be driven in most of the carparks in Singapore.

It runs on CATL battery, which is the best lithium battery in China.
